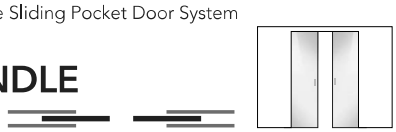
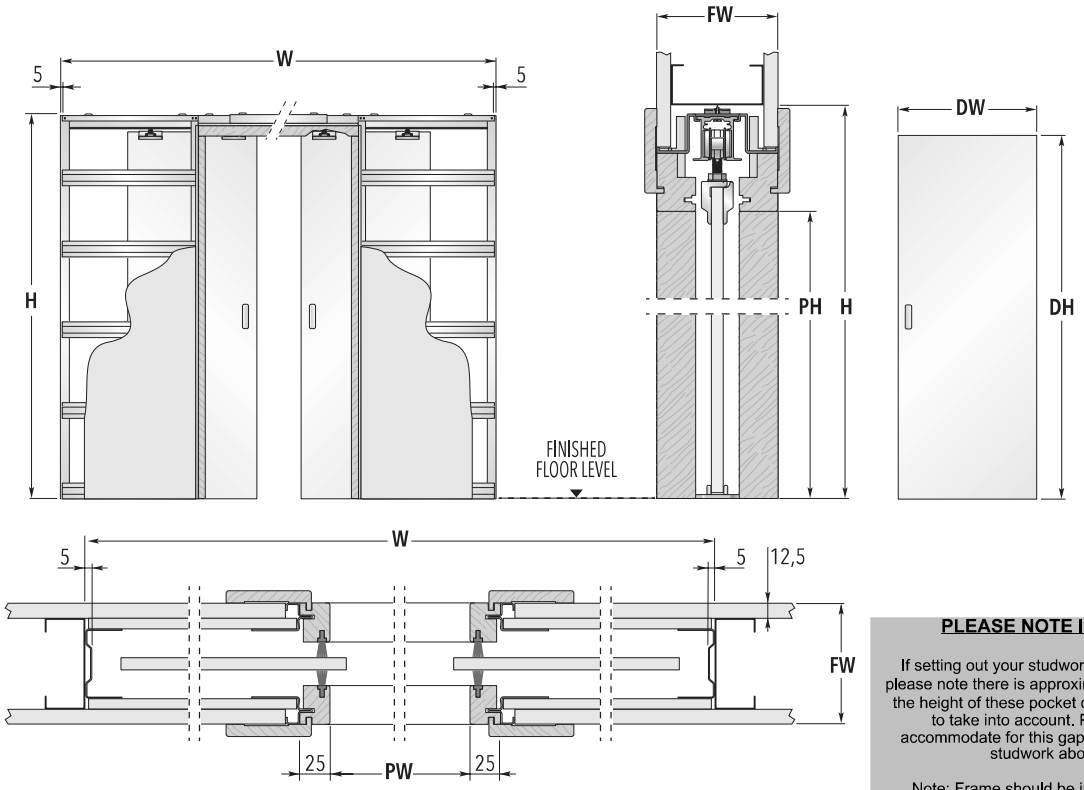
GLASS POCKET DOOR DOUBLE - WITH BAR HANDLE

DOUBLE POCKET DOORS SYSTEM





PLEASE NOTE INBUILT TOLERANCE

If setting out your studwork before delivery of your frame please note there is approximately an 8mm tolerance built into the height of these pocket door systems which you will need to take into account. Packers may be required to accommodate for this gap if you are unable to adjust the studwork above the system.

Note: Frame should be installed at finished floor level.

FRAMES FOR DOUBLE DOORS			GLASS DOOR PANELS*
